REF: MU/IA/VC/22/18/66

# SUBJECT: PROCUREMENT AUDIT OF AFRICA CENTER OF EXCELLENCE (ACE II) IN PHYTOCHEMICALS, TEXTILE AND RENEWABLE ENERGY (PTRE)

Reference is made to our provisional report Ref. MU/IA/WB/25/1/19 dated 7<sup>th</sup> August, 2018 on the above subject matter.

This is our final report on the same and incorporates the responses from the Center Leader.

#### AUDIT OBJECTIVE:

To ascertain if the Center's procurement processes comply with the provisions of the Public Procurement and Asset Disposal Act, 2015.

#### SCOPE OF THE AUDIT:

The audit covered procurement processes for the period ending 30<sup>th</sup> June, 2018.

## AUDIT FINDINGS AND OBSERVATIONS:

### A. Procurement and asset disposal planning

**Objective:** To establish if the Center has a procurement and disposal plan based on an approved budget and the plan includes choice of procurement and disposal methods and certain percentages referred to under the Act.

Criteria: PPADA, 2015 Section 53 (2) states that an accounting officer shall prepare an annual procurement plan which is realistic in a format set out in the Regulations within the approved budget prior to commencement of each financial year as part of the annual budget preparation process. PPADA, 2015 Section 53 (10) requires that for greater certainty, the procurement and disposal plan approved shall include choice of procurement/disposal methods and certain percentages referred to under sub section (6) which requires all procurement and asset disposal planning to reserve a minimum of thirty percent of the budgetary allocations for enterprises owned by women, youth, persons with disabilities and other disadvantaged groups.

**Condition:** The Center's budget is used as the Center's procurement plan. The plan has not been prepared in accordance with the Regulations. It does not indicate the choice of procurement method or the reservation of a minimum of thirty percent of

the budgetary allocation for enterprises owned by women, youth, persons with disabilities and other disadvantaged groups.

**Risk:** Non-Compliance to the PPADA, 2015. The Act recommends that any state or public officer who fails to prepare procurement and disposal plans shall be subject to internal disciplinary.

**Recommendation:** The 2018/2019 Procurement and Disposal plan should be prepared in accordance with the Act. It should state choice of procurement/ disposal methods for each procurement activity and certain percentages for enterprises owned by women, youth, persons with disabilities and other disadvantaged groups.

Center Response: The Center has been using the procurement format approved by the World Bank. The 2018/2019 Procurement and Disposal Plan will be prepared in accordance with the Act.

Internal Audit Opinion: Response is adequate subject to verification during follow up audit.

#### Procurement by Request for Quotations—Prescribed maximum for readily available goods.

**Objective:** To establish whether a register of suppliers was used, the prescribed maximum value for using requests for quotations was adhered to and the procurement is for goods, works or non consultancy services that are readily available in the market.

Criteria: Public Procurement and Asset Disposal (PPAD) Act, 2015, Section 105: Request for Quotations states that a procuring entity may use a request for quotations from the register of suppliers for a procurement if the estimated value of the goods, works or non consultancy services being procured is less than or equal to the prescribed maximum value for using requests for quotations as prescribed in Regulations; the procurement is for goods, works or non consultancy services that are readily available in the market; and the procurement is for goods, works or services for which there is an established market.

**Condition:** Tests carried out on the request for quotation files revealed that the register of suppliers was used in sourcing for quotations from prequalified suppliers and the prescribed value for using requests for quotations of Kes. 1,000,000 was adhered to.

Recommendation: The Center should continue complying with the regulations.

#### C. Procurement by Request for Quotations

**Objectives:** To verify that request for quotations was given to as many persons as necessary to ensure effective competition; given to at least three persons and at least three persons shall submit their quotations prior to evaluation.

To determine if requests are given early enough so that the person has adequate time to prepare a quotation.

**Criteria:** Public Procurement and Asset Disposal (PPAD) Act, 2015, Section 106: requires a procuring entity to send to as many persons as necessary to ensure effective competition and shall be given to at least three persons, unless that is not possible, and at least three persons shall submit their quotations prior to evaluation and enough time is given to persons to prepare quotations.

Condition: Tests carried out revealed that at least three persons submitted quotations for evaluation.

Evidence provided showed that submission of request of quotations by the procuring entity to suppliers was done electronically. There were cases where inadequate/limited time was given to suppliers to submit their quotations. For example:

- Q/2017/2018/ACE-II PTRE/76 for the purchase of lab chemicals was sent on 13<sup>th</sup> October, 2017 and was to be submitted by suppliers by 19<sup>th</sup> October, 2017.
- Q/2017/2018/ACE-II PTRE/214 for the purchase of lab chemicals was sent on 18<sup>th</sup> April, 2018 and was to be submitted by suppliers by 19<sup>th</sup> April, 2018.

Risk: Inadequate time given to suppliers discourages would-be suppliers to compete.

**Recommendation:** Adequate time should be provided to suppliers to submit their quotations. A request for quotation register should be kept as evidence that the requirement that as many persons were invited to bid is being adhered to.

Center Response: A minimum of seven days is given to suppliers to respond to quotations. The dates highlighted were as a result of typing errors on the quotation forms.

Internal Audit Opinion: Response is adequate subject to verification during follow up audit.

#### Procurement by Request for Quotations: Awarding and evaluation of quotations

**Objectives:** To establish if the quotation with the lowest price meets the requirements set out in the request for quotations, was awarded and prevailing market rates were considered before the award.

**Criteria:** Public Procurement and Asset Disposal (PPAD) Act, 2015, Section 106 (3): requires that the successful quotation shall be the quotation with the lowest price and that meets the requirements set out in the request for quotations and where the lowest price is above the prevailing market rates, the request for quotations shall be cancelled or terminated in accordance with the cancellation and termination procedures set out in Act.

**Condition:** Analysis of request for quotations evaluated did not reveal a price comparison with the prevailing market rates as indicated in the market price index list. It was therefore, not possible to determine if prices bid and awarded were within the prevailing market rates.

Risk: Procuring items above the prevailing market rates.

**Recommendation:** Evaluation of quotations should be completed with a comparison of bid/quoted prices with market prices before awarding.

Center Response: We have considered the market price during quotation evaluation and award though it was not indicated in the evaluation report. We shall incorporate the market price in future evaluation reports.

Internal Audit Opinion: Response is adequate subject to verification during follow up audit.

#### Procurement records.

**Objective:** To determine if procurement records are kept in compliance with PPAD Act, 2015; Section 68.

**Criteria:** PPADA, 2015 Section 68 requires an accounting officer of a procuring entity to keep records for each procurement after the resulting contract has been completed or, if no contract resulted, after the procurement proceedings were terminated. The records for a procurement shall include a brief description of the goods, works or services being procured; If a procedure other than open tendering was used, the reasons for doing so; if, as part of the procurement procedure, anything was advertised in a newspaper or other publication, a copy of that advertisement as it appeared in that newspaper or publication.

An accounting officer of a procuring entity shall maintain a proper filing system with clear links between procurement and expenditure files that facilitates an audit trail.

**Condition:** Tests carried out to confirm compliance to the requirement of Section 68 of the Act revealed that there is limited compliance. There was no reason provided for using a procedure other than open tendering and no copies of advertisements were kept.

Risk: Non-compliance to the Act which may result to internal disciplinary measures or penalties as provided for in the Act.

**Recommendation:** The Center procurement officer should maintain a proper filing system to ensure that the requirements of the PPADA, 2015 are adhered to. Reasons for using methods of procurement other than open tendering and copies of advertisements as it appeared in the newspaper should be made.

Center Response: The copies of advertisements and tenders are available for verification. Reasons for using other methods of procurement other than open tenders shall be filed for verification though procurement has been within the stipulated threshold.

Internal Audit Opinion: Response is adequate subject to verification during follow up audit.

#### F. Procurement of Air ticketing services through request for quotation method

**Objective:** To determine if the Center gets competitive lowest fares and air ticketing charges on the procurement of air ticketing services.

**Criteria:** Public Procurement and Asset Disposal (PPAD) Act, 2015, Section 106 (3): requires that the successful quotation shall be the quotation with the lowest price and that meets the requirements set out in the request for quotations and where the lowest price is above the prevailing market rates, the request for quotations shall be cancelled or terminated in accordance with the cancellation and termination procedures set out in Act.

**Condition:** Analysis of Local Purchase Orders, Quotations submitted and evaluated revealed that submission of bids by suppliers was non responsive and only two bidders were evaluated in most instances. Elgeyo Travel and Tours won majority of the quotations analysed.

Risk: Supplier manipulation and suppression.

**Recommendation:** Other methods of procurement methods should be explored to avoid being in contravention to the Act.

Center Response: The University Management is currently considering an MOU with the airlines with a view of procuring air tickets directly from them.

Internal Audit Opinion: Response is adequate subject to verification during follow up audit.

# G. Tender for the Supply and Delivery of Dyeing Machines: MU/ONT/8/2017-2018

**Objective:** To establish if the performance security for delivery of atmospheric dyeing machine to cover extension of delivery period was provided by the winning bidder.

**Criteria:** PPADA, 2015; Section 142 (1) states that subject to the regulations, a successful bidder shall submit a performance security equivalent to not more than ten per cent of the contract amount before signing of the contract.

**Condition:** Documentation provided indicated that the supplier requested for extension of delivery period by two to three months and the University accepted the extension. The University sent a letter to request the bidder to furnish it with performance security to cover the said extension.

Risk: Breach of contract and eventual loss to the University.

**Recommendation:** The University should pursue the performance security from the bidder since if the contract is not fully or well executed, the performance security shall unconditionally be fully seized by the University as compensation without prejudice to other penalties provided for by the Act.

Center Response: The supplier has been contacted to provide the performance security.

Internal Audit Opinion: The performance security will be verified once it is availed.

#### CONCLUSION:

We have audited the Center procurement processes/transactions and the overall assessment of the compliance for the period reviewed in relevance to the PPADA 2015, regulations and generally accepted principles of good practice. The sampled procurement processes/transactions reviewed were satisfactory.
